REAR ADMIRAL O.H. DODSON, U.S.N. (RET.)

Why do I collect coins? It makes history come alive. I have tried to collect coins of the 60 countries visited during my thirty year naval duty, and the 27 countries visited since my retirement.

Editor's note: Oscar Dodson is one of the few numismatists we have known who has literally "lived numismatics."

He is a writer, a lecturer, a world traveler, a history professor, but above all, he has been a life long student of numismatics. Retiring from the service in 1957, he taught history at the University of Illinois, effectively using ancient coins to excite interest in his ancient history courses. Later, while President of the A.N.A. (1957-61), he visited numismatic groups in Poland and the U.S.S.R. on a trip sponsored by the State Department. In 1959 Dodson established the Money Museum in the National Bank of Detroit. While serving as director of this museum from 1959 to 1965, he gave an average of forty talks each year on numismatics.

Lot No. 2038

1824 FIRST UNITED STATES COMMEMORATIVES

- 2038 1824 LAFAYETTE'S JUBILEE COMMEMORATIVE, struck on occasion of his triumphal visit to the USA. Bust r., GENERAL LAFAYETTE 1824. Rev. Bust left, GEORGE WASHINGTON. Dies by C. C. Wright of Wright & Bale, approximately half dime size, stamped on an 1820 (N-5) cent. Good with some portions closer to Fine (uneven wear), **unholed** — usually these were holed, for suspension, for wearing in one of the triumphal parades. **VERY RARE; 12 to 15 known would be a liberal estimate of survivors.** (a couple also known on dimes, at least one on a half dime, and half dollar; also reported on other coins.) **Of great historical interest.**

Lot No. 2039

UNIQUE WASHINGTON-LAFAYETTE "COMMEMORATIVE HALF DOLLAR"

- 2039 1824 Half dollar, Overton 113, counterstamped with C.C. Wright's dies, Obv. bust left, GEORGE WASHINGTON: Reverse head r., GENERAL LAFAYETTE 1824. Half dollar and counterstamp About Unc. The dies were made in 1824 to **commemorate the Marquis de Lafayette's triumphal return to the USA in that year;** the New York firm of Wright & Bale stamped them on a variety of coins as commemoratives. Most were holed for suspension and worn in triumphal processions. They are more often seen on cents. **The present half dollar is THE ONLY SPECIMEN EVER REPORTED!** It has been in many collections, of which the only one we recall offhand is T. James Clarke, who **prized it highly**, before then the Chapmans had it. In a very real sense, **THE FIRST AMERICAN COMMEMORATIVE HALF DOLLAR! BY FAR THE RAREST!**

COMPLETE 11 PIECE GOLD COMMEMORATIVE SETS

These occupy an interesting place in numismatics. Together with the Panama-Pacific \$50 Pieces, a total of only 153,955 coins were struck, not reflecting further meltings, for the commemoration of six events. There were (9) \$1, (2) \$2½, and (2) \$50 "slugs."

Long-term collectors have been rewarded by handsome price gains throughout the years. There is every indication that today's owners will be similarly impressed with the set's future performance.

Lot No. 2061

\$1 1903 MCKINLEY PROOF PRESENTATION PIECE

2061 \$1 1903 in plastic lettered: "U.S. 1903 LOUISIANA PURCHASE, McKinley Gold Dollar, 5TH COIN STRUCK, GEM PROOF GOLD DOLLAR, NO.-5947 Dance & Dance Col." with U.S. mint certificate stating "This is to Certify, that the accompanying LOUISIANA PURCHASE EXPOSITION GOLD DOLLAR, struck at the mint of the United States, (space containing \$1) at Philadelphia, in accordance with an Act of Congress approved June 28th, 1902 is one of the first one hundred impressions from the McKinley dies. Rhine R. Freed, Coiner. John H. Landis, Superintendent."

We note the Jefferson and McKinley \$1's offered in their original frames by L & L coins (Denver) early this year in their catalog at \$17,500.00 for the pair. The piece herewith offered is no doubt worth a few thousand dollars.

Lot No. 2062

EXCEEDINGLY RARE 1917 McKINLEY PROOF DOLLAR

- 2062 1917 McKinley, Brilliant Choice Proof**, few really trivial faint hairlines. *On building, under a glass, not only is there an attempt to depict the brickwork, but we see extreme carelessness in modeling the windows — the side of one of them extends up its height again beyond the top to the roof; others are only rudely sketched in. Of the highest rarity; to date we have records of only three others, one in Philda. estate, another in private collection, a third — which could duplicate that one or this — being Miles: 315. Not officially distributed to the public, these seem to have been intended for VIP's on the committee, possibly members of Boss Hanna's machine which had put McKinley into the White House.*

Lot No. 2063

\$50 GOLD 1915 PANAMA-PACIFIC ROUND & OCTAGON PAIR

2063 \$50 MCMXV (1915) Round, UNITED STATES OF AMERICA FIFTY DOLLARS around helmeted head of Minerva, motto and date (the only U.S. coins bearing date in Roman numerals, other than the \$20 1907 St. Gaudens in high relief). Rev. huge owl (symbol of wisdom), PANAMA-PACIFIC EXPOSITION SAN FRANCISCO around. Also \$50 8-sided companion piece with dolphins in angles on both sides. *THE LARGEST COINS STRUCK BY THE U.S.* Quite popular, and judging from past performance, they should prove to be as good an investment in the future as they have been in the past. We can still recall selling a set in 1949 at the A.N.A. 1949 convention (S.F.) at \$1,000.00. The strong persistent demand has steadily advanced them since. **Only 483 round and 645 octagon** were sold in 1915 at the issuing price of \$100 each. We hesitate to venture an opinion as to what percentage of this small issue still exists. Since we have encountered circulated specimens over the years, we do know that some were carried as "pocket pieces" as well as a number being mishandled. Not very many of these large, soft coins have survived over the years in their original state of preservation. **This lovely pair is Superior to Most We Have Seen** with only the faintest trace of rubbing. In fact, it is better than some "Choice Uncirculated" sets offered.

Lot No. 2064

\$50 1915 PANAMA-PACIFIC, OCTAGONAL

2064 \$50 1915 PANAMA-PACIFIC, OCTAGONAL, struck on the fair grounds in 8-sided shape (similar to U.S. contract coinage of 1851 Augustus Humbert and 1852 U.S. Assay Office). The initial popularity waned and only 646 were sold. The 8 corners resulted in many acquiring dents and nicks. This one is a nice specimen without defects seen on many. Under a glass, one might discover some miniscule signs of handling but on the whole, it is **Choice Uncirculated!** We believe the new owner will derive much pleasure (and "profit") as did the present owner.

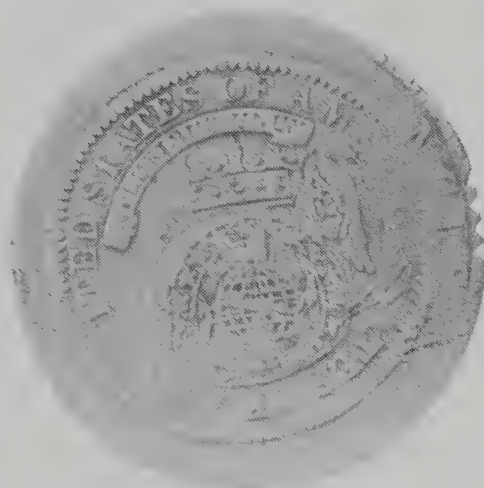

Lot No. 2065

\$50 1915 PANAMA-PACIFIC, ROUND

2065 \$50 1915 PANA-PACIFIC, ROUND. Unusually **Choice Uncirculated** except for a few light hairlines discernable with a glass. Not as popular as the Octagon "slugs" (which were struck earlier on the Fair grounds). Struck on a special hydraulic press weighing 14 tons, with a striking power of 450 tons, brought to San Francisco from Philadelphia for the occasion. The first of these rare coins were struck on June 15, 1915 by order of Superintendent Shanahan. They were sold at \$100.

AVOID ERRORS - RECHECK YOUR BIDS!

- 2066 1939 HK487-488 ("Extremely Rare" & Very Rare") GOLDEN GATE INT. EXPO. (S.F.) official "\$1" (gold \$1 size) "PACIFICA 1 D Solid Gold" bust/expo. view. Also in silver, no 1 D but "Sterling", Unc., holder. Cat. (1963) \$225: sold 1974 (\$475.) **PLATE.**
- 2067 1945 ANNE FRANK/broken roses, commemorative, gold, in plastic, 35mm, **PROOF. PLATE.**
- 2068 1961 **MORMON** \$5 size JOSEPH SMITH*PROPHET-SEER-REVELATOR around bust/SALT LAKE TEMPLE*THIS IS THE PLACE around temple, Brilliant Choice Proof. **PLATE.**

Lot No. 2070

UNITED STATES PATTERNS

- 2070 **UNIQUE 1832 50¢ STRUCK ON BRAZIL COIN.** From 11/74 sale (lot 1865) described: Ex Don Taxay, as "**1832 Bust Half Dollar struck on Brazil 80 reis copper.** Listed in Scott's Comprehensive Catalogue as "**UNIQUE**". A "Set-up" piece used to set-up and align the dies before commencing regular striking. Tiny but not very deep puncture at center and 3 serrated marks at right edge (to hold and align dies?). A most unusual and historical piece. Highly desirable." It fetched \$3,600 then, three years ago; present value?

- 2071 2¢ 1836 J-54, eagle, richly toned, with iridescently red-hued centers, copper; first 2¢ pattern rendition, R-6. (300-up).

Lot No. 2072

\$1 1836 COPPER GOBRECHT, JUDD 64, ONLY 2 KNOWN!

- 2072** 1836 Judd 64, Copper restrike with plain edge, Gobrecht's name **above** date, Reverse die of 1838 with Flying Eagle in plain field. From our M.A.N.A. sale, Nov. 1974, #1860, described: ". . . lovely glittering Red and Bluish Proof, Choice! **ONLY 2 KNOWN!** This is the Parmalee specimen (sold 1890); Farouk collection (palace sale 1954); Austin collection, 1973. It is difficult to venture an opinion what such a highly desirable rarity might now bring but comparing it with other desirable pieces of similar nature we feel its present value to be somewhere around \$25,000." Our estimate proved perceptive, as after spirited bidding, the piece realized \$24,500. Now about three years later, the successful bidder will add his name to the pedigree of this piece's illustrious past.

Lot No. 2073

- 2073** 50¢ 1838 J-72, Choice grey-toned Proof, a majestic specimen of the Kneass Obverse and Gobrecht's Reverse, Silver, R-6. ((1,000-up).

1871 UNIQUE UNLISTED INDIAN PRINCESS DOLLAR

2140 \$1 1871 **UNLISTED**, Indian princess with 13 stars around border and 13 stars in flag/regular reverse, glittering red and bluish obverse, glittering light golden reverse, **Wire Edge Gem!** Struck in copper, reeded edge. Judd lists 1138a (silver) R-8 and 1138b (aluminum) R-8 but **NOT THIS COPPER!** This remarkable specimen last appeared 11/2/74 (lot 1862) described as J-1138a where it sold at the "bargain" price of only \$5,000.00. Judging from what less rare and less desirable patterns have brought in the intervening years, we believe this **UNIQUE** pattern will bring well into five figures.

Lot No. 2141

2141 \$1 1871 **J-1148**, Indian princess with 22 stars in flag/regular reverse, copper, lovely iridescent Wire Edge Proof. Scott two years ago called it "**HIGH R-7**" - **ONLY 4 TO 6 KNOWN** and valued it \$2,000; since then we have noted prices for similar rarities at double to five times

Lot No. 2150

1874 U.S. INTERNATIONAL \$10 GOLD

- 2150** 1874 J-1377 Dana Bickford's International Ten Dollar Piece, head of Liberty, rev. divided into six sections with value in six different countries, struck in nickel, Brilliant Wire Edge Proof, The difficulty in striking this hard metal is reflected in the die break and pinpoint planchet chip in obverse field. The holder states "ONLY 5 ISSUED" which seems to be confirmed by Scott's "HIGH R-7 - ONLY 4 TO 6 KNOWN!"

The INTERNATIONAL GOLD PIECES (\$10 1874, \$4 1879-90, \$20 1879 Quintuple Stella) have been quite popular with the \$4 gold 1879 (415 struck) having a catalog value of \$22,000 (1879, 1880 coiled hair - 10 each - catalog \$90,000 each). Enclosed is a Dec. 1, 1976 Coin World ad (page 51) of a Texas dealer offering: "R-5 copper at \$9,250; in our opinion, the most interesting pattern ever issued. We sold a piece to a dealer in 1974 for \$10,000.00"

Various authorities have stated that the nickel specimens are from four to six times as rare as the copper ones. The last specimen we cataloged was the gold-plated copper one in our Jan. 4, 1975 Beverly-Hilton sale wherein it fetched \$10,500 to a floor bidder who traveled from the east to bid for it. It will be interesting to see what this **many times rarer** nickel specimen now brings.

2152 1876 J-1465, Liberty with pearls on diadem "UNITED STATES OF AMERICA E PLURIBUS UNUM" around wreath containing "ONE DOLLAR", copper, reeded edge, lovely iridescent Wire Edge Proof. **Judd states "R-8"!** Certainly among the **"MOST WANTED" PATTERNS** the past two years. What few were offered of the different basic designs of 1876 dollars, were priced well into the five figures.

Lot No. 2158

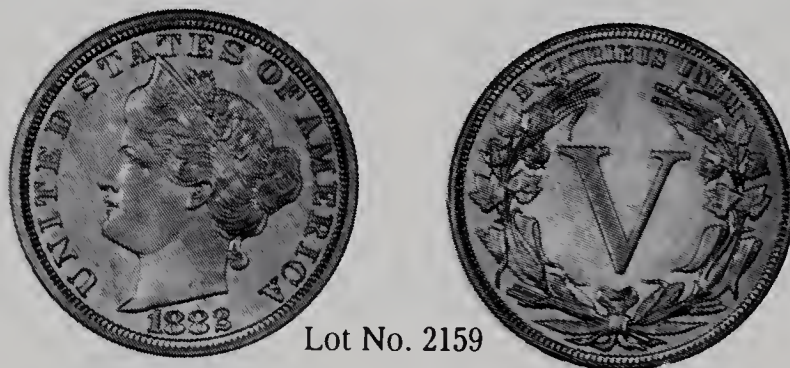

1882 "BLIND MAN'S NICKEL"

2158 5¢ 1882 J-1683, "1882 Regular type but **FIVE EQUALLY SPACED BARS ON THE EDGE SO A BLIND MAN COULD TELL WHAT COIN IT WAS.**" Interesting minute (pinpoint size) indication at edge opposite a bar. **A BEAUTIFUL BRILLIANT WIRE EDGE Proof!**

A "**FAMOUS COIN**" in the sense that the "story" is inherent in the makeup of the coin rather than its fame being outside the coin as a rare date (1804 \$1, 1913 Liberty 5¢, etc.) A certain "**Show-stopper**" when properly displayed and written up.

Scott states 3 struck but **ONLY TWO KNOWN!** We believe this one to be the FAMOUS DR. JUDD SPECIMEN which appeared in the Harmer-Rooke 1969 sale and again reappeared in the "Sale of the 70's". It was pointed out in the description there: "*The GREAT RARITY of this "COIN WITH A STORY" has prevented it from coming upon the market in order to establish new records over the years. For instance, Judd changed its theoretical value from \$2,000 in 1959 to \$2,500 in 1962 in the Second Edition. Since then popular patterns (such as 1874 Bickford International \$10 in copper have gone from \$300 in Second Edition to a catalog value of \$900 in Fifth edition but with a market value - Dec. 1, 1976 Coin World ad - page 51 of \$9,250) have risen dramatically. If the same yardstick were applied to this "FAMOUS BLIND MAN'S NICKEL", the value should then be quite a few multiples of the \$16,000 it realized in 1973 - at the early stage of the dramatic rise in values.*"

WE CANNOT THINK OF A MORE DESIRABLE OR VALUABLE PATTERN THAN THIS BLIND MAN'S NICKEL!

1885 EXPERIMENTAL "MORGAN" TYPE SILVER DOLLAR

2162 1885 J-1747, Snowden's experimental piece, regular dies with motto **E PLURIBUS UNUM** on the edge in raised letters (repeated for the \$20 1907 Roman date). **BRILLIANT WIRE EDGE GEM PROOF** except for the minute "test-mark" on edge (to be sure it was silver and not silver-plated?). In strong demand by Morgan dollar collectors to elevate their collection to the interesting and unusual. The raised edge motto concept has been used in other countries for many years. Scott stated "**RARITY 7**" - **ONLY 7 TO 9 KNOWN** and values it \$4,000 (from information compiled 3 years ago) but published 2 years ago. The popularity of the Morgan dollar is reflected in the \$8,000 realized for this rarity at the 11/2/74 sale

Lot No. 2163

- 2163 \$1 1900 UNLISTED.** Die trial of rusted obverse, reg. die, uniface, on broad (45mm) **brass** planchet. Given only one blow from the die and that not strong enough to bring out all details of design. Unused but toned and lightly patinated reddish brown. We suspect that this may have been made outside the mint from a genuine die, though normally these discarded dies were defaced. So far as we know, **unique and unpublished**

1942 EXPERIMENTAL CENTS SET

- 2163A 1942 EXPERIMENTAL CENTS SET**, manganese, zinc-coated steel (as later adopted), amber transparent plastic, and bakelite. Obv. style of Colombian 2 Centavos, capped female head r., olive branch behind ear. LIBERTY JUSTICE around, 1942 below. Rev. Wreath incl. UNITED STATES MINT. Unc. and of **EXTREME RARITY!** We have seen others in zinc-coated steel and Bakelite and a variety of different colors and textures of opaque plastics before, but never the transparent one. Most probably only a few of each were struck during the experimentation which finally led to adoption of zinc-coated steel. Extreme historical interest! Ex. Thomas F. Mason's "Frontier Mint," where offered some years ago at \$4,250 as a set.

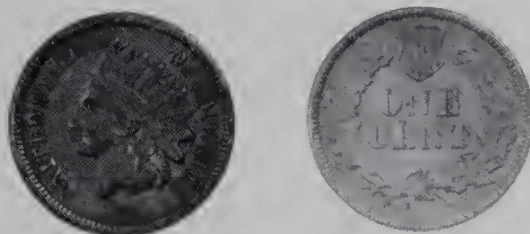

TRANSITIONAL COINS

A series made popular some years ago when a list was published in the March 9, 1961 Coin World. While a few (1856 F. Eagle 1¢, 1866 no motto 25¢, 50¢, \$1; 1836 reeded 50¢) have been included in the Guidebook as regular issues, additional ones are included in the Scott Catalogue. Of course all are contained in Dr. Judd's Pattern book. They appear to be again increasing in popularity.

Lot No. 2164

- 2164 1¢ 1859 J-228. Type 1860 (shield & oak wreath rev.)** Brilliant golden Uncirculated Sharp Struck Gem in spite of a few flyspecks. Scott includes this among the regular issues along with the 1856 Flying Eagle and states "Actually a pattern, but a quantity of non-proofs were placed in circulation, R-3" and valued it \$350 AU and \$500 Unc. The plastic holder has "Rarer Than 1856 Cent". A lovely premium specimen.

Lot No. 2165

- 2165** 1¢ 1861 J-274, Regular dies **STRUCK IN COPPER** with the thickness of normal copper-nickel cents, business-strike (unpolished dies and planchet) rather than proof as normal for patterns, slight rub. Acquired as “POSSIBLY UNIQUE” ex. Parson Col. (lot 401). **RARITY 8 IN JUDD!** While not included in original list of “Transitionals” a former owner felt that this was an attempt to change from the costly hard-to-strike copper-nickel to the less expensive more easily struck (dies would last longer) copper (as later adopted but using a thinner planchet) Acquired 3/69 at \$760; undoubtedly now worth several times that amount.

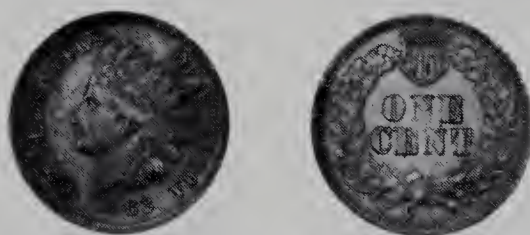

Lot No. 2166

- 2166** 1¢ 1863 J-299A, **UNLISTED**, Regular dies, **STRUCK IN COPPER** with thickness of normal copper-nickel cents, (a proposal to conserve bullion value in face of rising prices?) no “L”, double thickness of J-299 (which was adopted later in 1864). **GLITTERING SUPERB IRIDESCENT COLORS:** lovely Proof with “Broad Square Edge”, inverted reverse. Not in Judd and many times rarer than the thin planchet J-299! Acquired 3/69 at \$2,100.00

Lot No. 2167

- 2167** 1¢ 1863 Regular dies, **STRUCK IN COPPER** with thickness of normal copper-nickel cents but with normal reverse, business-strike (unpolished dies and planchet), Thin wire edge. Uncirculated faded red blending to bluish brown. First we can recall seeing! Undoubtedly **EXTREMELY RARE!**

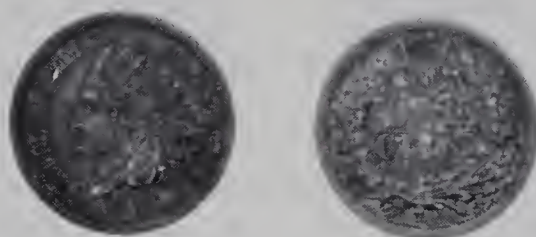

Lot No. 2168

1863-L TRANSITIONAL PROOF CENT

- 2168** 1¢ 1863 J-302, Indian with “L” on ribbon, type adopted in 1864, normal thick copper-nickel, bluish olive Proof, tiny nick visible with glass. Among the **RAREST OF THE TRANSITIONALS!** Although Judd has it “R-7”, we believe it to be “HIGH R-7” - **ONLY 4 TO 6 KNOWN!** Acquired three years ago from our July 13, 1974 (lot 782 sale at \$5,000.00

- 2168A 1864 UNLISTED TRANSITIONAL CENT** - 1864 "L" similar to thin regular bronze but "White Cent," lovely, Brilliant, Golden, Wire Edge GEM PROOF! Weight 51 grains compared to 48 for normal bronze & 72 for normal copper-nickel. Acquired 7/74 sale (lot 783) at \$1,100; present value?

Lot No. 2169

- 2169 1¢ 1864 Ex. New Netherlands** as "Transitional Pattern Bronze, Thick Flan, no "L", wgt. 73½ grains, RR: Not in A.W. ANS 1914 Cat. #456C Page 101. "SUPERB IRIDESCENCE, LOVELY Proof WITH BROAD "SQUARE EDGE". It reappeared 3/69 when it fetched \$2,100.00. Present market?

Lot No. 2170

- 2170 1¢ 1865 J-404**, Regular dies in copper-nickel on thin planchet (thickness of normal bronze cents), golden Wire Edge Proof, small carbon spot and minute flyspecks RARITY 7. The collector considered the possibility of the Mint returning to copper-nickel but on the much thinner planchet being used in 1865. Acquired 1971 when Judd valued it \$750; the strong demand in the intervening six years will no doubt now produce a substantially higher price.

Lot No. 2171

- 2171 2¢ 1863 J-316**, DESIGN ADOPTED IN 1864, bronze, Brilliant WIRE EDGE Gem Proof! A magnificent specimen and highly popular. Accompanying it is "No. 9 - Transitional" and "June 15, 1962 Coin World \$2,300.00". We do not know what the present "market value" might be.

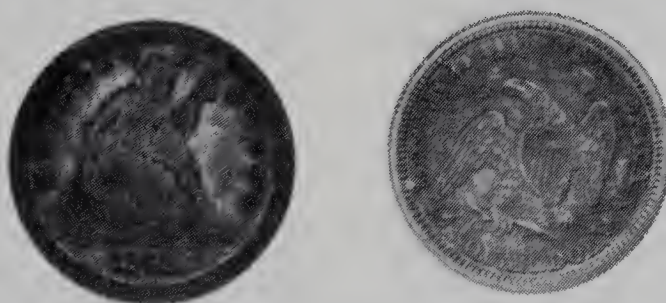

Lot No. 2172

- 2172 5¢ 1883 J-1717**, Similar to regular 1883 Liberty without "cents" but with "CENTS" added across "V", Brilliant bluish golden Wire Edge Proof, struck in nickel. Evidently a quick way to solve the "centless" nickels being plated and passed as \$5 gold pieces. Acquired 3/69 at \$750; present market?

Lot No. 2173

- 2173 25¢ 1863 J-337, Type adopted in 1866 with motto IN GOD WE TRUST, aluminum, Brilliant WIRE EDGE Gem Proof! Listed in Scott Catalogue (page 224) as **RARITY-8 with ONLY 3 KNOWN!** Unpriced there although the copper (J-336) listed there as R-7 is priced \$1,250.00. Who knows how many more years will elapse before this coveted piece will again come upon the market?

Lot No. 2174

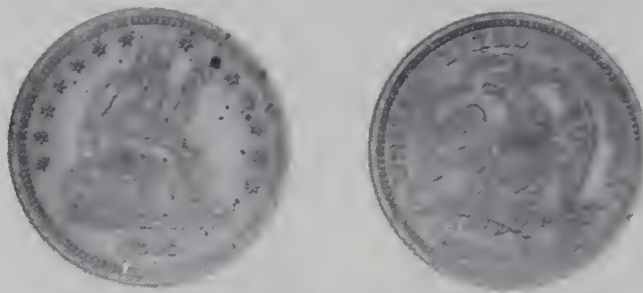

- 2174 25¢ 1864 J-386, Type adopted in 1866 with motto IN GOD WE TRUST, silver (number 19 in list of Transitionals). **Gem WIRE EDGE Proof with SUPERB IRIDESCENT COLORS.** We cannot imagine a lovelier specimen of this **"HIGH R-7 - 4 to 6 KNOWN"** (Scott) popular transitional. The Scott valuation (two years ago) of only \$1,500 seems quite conservative in view of its rarity and popularity - particularly in comparison to the \$15,000 value given to the similar type 1865.

Lot No. 2175

- 2175 25¢ 1864 J-388, Type adopted in 1866 with motto but stuck in aluminum, Brilliant BLuish WIRE EDGE Gem! **ONLY 2 KNOWN!** We do not know if this is the Farouk or Lohr specimen. **Unpriced in Judd and Scott.** Scott values the copper (J-387) R-7 (7 to 9 known) at \$1,250: it will be interesting to see what this much rarer one brings. While we dislike to use the term "Chance Of A Lifetime, it could possibly apply to this great rarity.

Lot No. 2176

- 2176 25¢ 1865 J-426, Type adopted in 1866 with motto IN GOD WE TRUST, struck in copper, red and bluish Wire Edge Proof, some fly-specks and tiny carbon spot. Scott states Low R-7 and values it \$1,250.00.

Lot No. 2177

- 2177 50¢ 1863 J-344, Type adopted in 1866 with motto IN GOD WE TRUST, struck in aluminum, Brilliant BLUISH WIRE EDGE Gem Proof in spite of pinpoint edge imperfection in planchet when struck. **ONLY 3 SPECIMENS KNOWN** (Scott)! Unpriced in that two-year old reference although they value the silver "High R-7" at \$3,000 and copper "R-7" at \$1,250. It is difficult to know what this much rarer one is "worth" compared to the above silver and copper.

Lot No. 2178

- 2178 50¢ 1864 J-391, 1864 Type adopted in 1866 with motto IN GOD WE TRUST, silver, Brilliant GOLDEN WIRE EDGE Proof, a lovely specimen in spite of the few thin faint lines in right obverse field, natural uncleaned surfaces. Scott has "**HIGH R-7**". **ONLY 4 TO 6 KNOWN!** Valued in the two-year old reference at \$2,500., which seems rather conservative in view of its rarity and popularity. Number 25 in the March 9, 1961 Coin World list of Transitionals.

Lot No. 2179

UNIQUE 1864 TRANSITIONAL MOTTO HALF DOLLAR

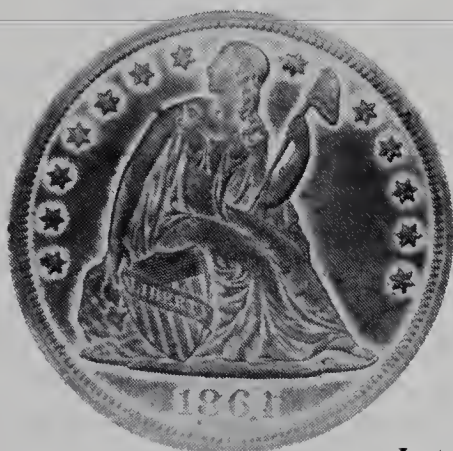

- 2179 50¢ 1864 J-394, Type adopted in 1866 with motto IN GOD WE TRUST, the **UNIQUE SPECIMEN STRUCK IN NICKEL, Brilliant WIRE EDGE Gem Proof!** The difficulty in striking the hard nickel coins is evident in Liberty's breasts (and corresponding reverse - left eagle's leg) not being struck up to quite its proper height. Lot 1867 of 11/2/74 sale at \$21,000.00.

Lot No. 2180

1865 TYPE 1866 TRANSITIONAL MOTTO HALF DOLLAR

- 2180 50¢ 1865 J-429, Type adopted in 1866 with motto IN GOD WE TRUST, silver **GRAY AND BLUE WIRE EDGE Gem Proof!** A lovely specimen of this highly popular Transitional bearing number 26 on the list of Transitionals. Scott states "**ONLY 3 SPECIMEN STRUCK**"! Valued there at \$17,500.00. We could never resolve the rationale in listing the 1866 no motto Transitionals (J-536-38-40) in the Guidebook but omitting the 1865 with motto Transitionals. Should that omission be corrected in the future, the demand would certainly increase quite substantially.

Lot No. 2181

- 2181 \$1 1864 J-397, Type adopted in 1866 with motto IN GOD WE TRUST, copper, glittering red and bluish Wire Edge Proof, a Gem in spite of the few flyspecks. Rarity 7 - only 7 to 9 Known! The two-year old Scott value of \$1,500 seems rather conservative in view of the rarity and popularity of the "Motto" series. In fact, this was one of the last acquisitions in this collection (about two years ago) at a cost of \$2,500.00.

Lot No. 2182

1865 TYPE 1866 TRANSITIONAL MOTTO SILVER DOLLAR

- 2182 \$1 1865 J-434, Type adopted in 1866 with motto IN GOD WE TRUST, silver, **Brilliant WIRE EDGE Gem Proof! A MORE PERFECT OR DESIRABLE SPECIMEN COULD NOT EXIST!** Highly popular, probably due to the occasional appearance of the 1866 no motto Transitionals (J-540 - two known) over the years, the most recent appearance being offered for direct sales at a price reputed to be in excess of \$75,000.00. Scott states **"5 PIECES STRUCK"** for this 1865 and values it at \$20,000. in that two-year old reference. Should this Transitional be included in the Guidebook, along with the 1866 no motto Transitional, the increased demand should be quite marked.

Lot No. 2183

UNLISTED? 1865 TYPE 1866 TRANSITIONAL MOTTO DOLLARS

- 2183 \$1 1865 J-434a?, Similar to above (J-434) but SILVER-PLATED COPPER. At first we thought this to be a duplicate but due to its great rarity, we felt it unlikely to have two at one time. Careful checking of its weight lead us to conclude that it was probably silver-plated copper. Both Judd and Scott lists only silver, copper and aluminum. Should this be listed as a NEW VARIETY (presumably UNIQUE)? It is quite deceptive and without checking its weight it would no doubt be attributed as J-434. Brilliant golden Wire Edge Proof, tiny spot and some gray toning at left obverse but the reverse is lovely.

- 2184 \$1 1865 J-435, Type adopted in 1866 with motto IN GOD WE TRUST, copper, lovely iridescent blended red-blue-green Wire Edge **Proof**, some minute fly-speck carbon spots on obverse. Scott states "**10 PIECES STRUCK**" and values it \$3,000.; present market two years later?

VERY RARE 1857 PARTIAL PROOF SET

2186 1857 Half Cent: "B" rev. of 1856 (double impressions on CENT, ribbon); iridescent bluish olive and orange, **Choice**. Large Cent: N-3, mostly **ORIGINAL RED**, blending to bluish light olive in obv. field, one tiny rev. rim spot; **FAR ABOVE AVERAGE FOR THESE**. Small Cent: Diagnostic die file marks from NI to rim; **BRIGHT**, faintly hairlined, pale gold tone. Trime or 3c silver, from different dies from regularly seen Proofs, weak at borders, possibly early business strike, but **Choice**. Half dime, V-3 as on the vast majority of surviving Proofs; warmly toned, faintly hairlined. Dime, different from the usually seen B-1 dies, date higher; warmly toned, parts of border not as well brought up as remainder, possibly a Gem first strike. Quarter, different dies from usual for Proofs, and possibly a Gem early business strike, pale blue tone. Half Dollar, date slanting down to right, same dies as other **Proofs** seen to date, brilliant, pale gold tone, few faint hairlines. Dollar, same dies as other **Proofs** seen to date with the reverse of 1856 (die file marks above ITE and ES), warm irregular tone, a **BEAUTY**. Among these, the small cent is by far the rarest denomination, followed by the half dollar, possibly a dozen of the former and twenty of the latter surviving. Worth a good price exactly as it is.

N.B. Comments on above Laurel Medals: Obviously, this presents an opportunity to obtain pieces which may never again be offered for public sale. All are similar in striking characteristics: die scratches, a bit rough on surfaces, and sig. C Z (Crispulo Zamora). Dr. Jose P. Laurel was Justice of Phil. Supreme Court under Pres. Quezon. Jorge Vargas was Quezon's Secretary, then became Mayor of Manilla under Japanese, & later Chairman of the puppet Executive Council. Both he and Laurel were tried for collaboration after the war & both acquitted. The sun and three stars are known as "Katipunan Symbol." The stars represent three main Phil. areas: Luzon, Visayas, Mindanao. The sun is for Liberty, 8 rays representing the first 8 provinces to revolt against Spain. It is reported that 2,000 medals were made of B-165, 1500 of B-166 & 500 of B-167.

AUSTRALIA

- 2642 Lot 2573A Kreisberg-Schulman 5/66 sale described: "1873 Pound, RICKETTY DICK 1873" around bearded bust, reverse "STRUCK AT THE EXHIBITION MINT" around coat-of-arms, About Uncirculated, tiny clever repair at Y (evidently tiny hole for suspension). Attributed by others and I quote, "Piece is undoubtedly of the period, belongs in same class as Burgers South African Pound of 1874, i.e. not fully government, but nevertheless genuine monetary item. This Australian mining Pound was valued at \$500 (1956). R. Dick was a pioneer gold miner in the Australian bush", end of quote. In the October, 1928 Numismatist on p. 593 giving a description of displays at the A.N.A. convention, under the late Elmer S. Sears exhibit is included: "Australian sovereign, 1873, known as "Ricketty Dick", rarest coin of Australia. **ONLY 10 WERE STRUCK OF WHICH ABOUT 5 ARE NOW KNOWN!** The coin was purchased by a dealer in 1961 at \$1,000."
